Cheltenham High School
Dual Enrollment

Wednesday, May 5, 2021
Congratulations! You have met the requirements to participate in dual enrollment.

- Unweighted GPA of 3.0 or higher
- 90% or better attendance record
- Recommendation from your high school counselor
- Satisfactory progress toward fulfilling applicable graduation requirements as determined by CSD
BENEFITS OF DUAL ENROLLMENT

- Great savings to you on future college costs.
- Experience college life and get a head start.
- Explore college courses in areas of interest.
- Transferrable credits when you attend college (will depend on the college you attend and their policy).
- Strengthen your college application.
General Information

- College name and name of course with Pass/Fail designation will appear on your high school transcript.

- For a course during our school day, choose a time the course is offered in the latter part of the school day. You do not return to CHS for the remainder of the day.

- If you schedule an after school/evening course you are eligible to leave CHS before the end of the school day; however, you must take a college course in the spring.
Things You Need to Know

● You could start this Summer or wait until Fall.

● If you register for a course which is part of your school day in the fall semester, you must register for a course to fill the time slot in the spring semester.

● You may choose an after school course or an evening course either fall semester or spring semester. You are not obligated to take a course for both semesters since it does not impact your school schedule.
CHS Support

● Meet with your guidance counselor to look at your high school schedule.

● Mrs. McGoldrick will work with you to complete forms and register.
